THE NATIONAL SOCIALIST BROTHERHOOD

by Harold A. Covington

On numerous occasions in the past year, I have stated my belief that the Aryan Movement's problem is not one of approach, but of the physical and spiritual quality of the people who are involved with us. Specifically, the problem boils down to one central difficulty from which all others spring: our pathological cowardice.

I have said that any new approach is pointless until this basic issue is addressed and resolved. It is clear that we have no intention of doing so. Therefore, I am going to violate my own opinion by offering a new approach. I am doing this because there doesn't seem to be anything else to do. With minor exceptions, I can't get you to talk about the things we urgently need to be talking about or address the very real and very serious issues concerning our racial survival, because those issues make you uncomfortable and cause you emotional pain. (Collective, generic you, no individual reference intended, small number of exceptions duly noted.) For reasons that defy rational analysis, I refuse to give up, even though every indication is that further pursuit of any racial endeavor with the human material we have now is useless. So let's run this one up the flagpole and see if anyone salutes.

TOO MUCH LEADERLESS, NOT ENOUGH RESISTANCE

The duty of every racially aware Aryan and National Socialist is crystal clear. We need to form an open National Socialist Party under the most stern and vigorous of revolutionary discipline. It is equally clear that the probability of this occurring with the human material we now have access to is roughly that of the discovery of an asteroid made of chocolate cake. There will be no Party, not the NSWPP or anything else, because you (collective, generic you, no individual reference intended, tiny number of exceptions duly noted) do not want one. Parties tend to involve personal risk and inconvenience, and collectively we have made the decision that the survival of our race is not worth any personal risk or inconvenience to ourselves.

The usual way in which we explain away our reluctance to incur any risk or inconvenience is to claim that we are practicing Leaderless Resistance, a term based on an excellent article written almost ten years ago by Louis Beam. Leaderless Resistance as envisioned by Beam is superb in theory; in practice, it is hogwash. Beam's article has been completely misinterpreted down through the years by White males who have the shabbiest of motives for doing so. Half of the term "Leaderless Resistance" seems to have been forgotten; Beam envisioned not only leaderless cells operating independently of one another, but he envisioned these cells actually resisting, i.e. actually doing things, things that entail revolutionary risk and attract attention.

As actually practiced in the Aryan Movement today, Leaderless Resistance is an excuse to hide and to do nothing at all, while maintaining the fiction that we are in fact

fulfilling our racial duty and thus salving our troubled consciences. We know perfectly well that we should be doing something about the organized butchery of our race and our civilization by the Jews, but we also understand that we are cowards and we don't have what it takes to stand erect and be men again. Leaderless Resistance is our way out, the fig leaf that covers our moral nakedness. There is way too much "leaderless" and way too little "resistance". Like the personal computer, the Leaderless Resistance theory enables and facilitates White cowardice by allowing it to co-exist with the pretence that something may be accomplished in our struggle without incurring risk, and while keeping our identities and beliefs secret from the little woman and the august functionaries of the local Rotary Club.

It is above all an excuse to avoid the hard physical and moral work of forming a revolutionary National Socialist Party and engaging in political struggle and psychological warfare against ZOG. Leaderless Resistance is one of several devices whereby the racially aware White male seeks to have his cake and eat it too. Leaderless Resistance enables the White male to pretend that he is engaging in racial struggle while simultaneously maintaining his luxurious lifestyle. Leaderless Resistance lets him keep his consumer toys. It means he doesn't have to feel guilty about not moving to where he is needed or not opening his checkbook to any meaningful degree. The Leaderless Resistance canard allows the White male to feel good about himself while in fact doing nothing, and in the 1990s self-esteem is all that matters.

One of the criticisms which has been leveled against me on several occasions, with reference to some of my more acerbic commentaries, is "Harold, you are making our people feel bad about themselves." Why, exactly, we should feel good about having allowed our country to come to the pass where Clinton is seriously moving to confiscate private firearms, or why we should feel good about sitting back and allowing the deranged Buford Furrow to become the public face of our ideology, is something which I confess escapes me. I guess I'm just not a Nineties kind of guy.

I won't go on, except to say that if we are going to try a new approach, we will have to try something which takes into account this factor of White cowardice and the longing among White males for some way to slap that fig leaf onto the nakedness of their souls, to pretend that they are not really cowards. I believe I have found a way to do this.

Why on earth (I hear you implore) would we want actually to ENCOURAGE what is in fact an utterly contemptible character flaw? The answer is that we must try this because we have tried everything else, and giving up is not an option. Everything else we have tried stumbles over this central problem of White male cowardice. If we are to accomplish our short-term goal---survival into the future when times change and the White man changes---then we are going to have to find some way to make it through the remaining years of the "Clinton prosperity" which has made our people so fat, sleek, and torpid like hogs sunning themselves in the mud while the butcher sharpens his knife.

MAKING A VIRTUE OF NECESSITY

We are not going to form a proper Party on the one hand, and on the other hand leaving it all to individual initiative under Leaderless Resistance doesn't work. Okay, that's our starting point. Let's try to strike some kind of medium balance which will take into account our various weaknesses while offering at least some chance that we will be able to get some mileage out of the people we've got---enough to survive into the 21st century until times change and a new generation appears. Kind of like replacing a junked-out, broken down automobile's piston with a ball point pen in hope that the damned thing will roll a few more miles down the road until one can get to a gas station with a mechanic.

What are the White male weaknesses we must take into account? A) Pathological physical cowardice, including panic to the point of involuntary diarrhea at the prospect of even an e-mail address somehow leaking out; B) Stark terror at the idea of friends, co-workers, or anyone else discovering the fact that we harbor dissident racial thoughts in our mind; C) Sluggish, torpid laziness which precludes much of anything in the way of actual physical activity, including unwillingness to drive long distances when one can sit behind a computer with a cold brewski in the pale, flabby paw; and D) A passionate reluctance to open one's checkbook to any degree approaching one's actual resources, hence denying any new effort any chance of any kind of serious funding until such time as we can somehow get a 10 X 1000 plan going.

On the positive side, what have we got? Well, there are a few positive aspects to this mess, believe it or not. Not many, but enough to be getting on with.

To begin with, the fact is that for all your faults (collective, generic you, no individuals meant, usual disclaimers, etc.), you are still here. That indicates that at least some rudimentary racial conscience still exists in our Movement. It is a low, glowing ember, but it can still be fanned into a flame if handled carefully.

One of the reasons I can speak so candidly to you in a commentary like this is that most of you have made it this far, and most of you know damned well that I'm right. It's not as if I am telling you anything about our Movement you don't already know. That is an advantage; with a list this stripped-down I can afford an essential honesty I couldn't if this were a typical right-wing sucker list. I don't have to bullshit you, and that's a tremendous advantage, when you think about it.

Secondly, most of you are good for at least the odd \$10 or \$20 conscience donation, so any new effort will not be totally without funds. This is good, since I myself couldn't finance a single mailing right now. Our new approach is possible because it can be done on the cheap and makes no uncomfortable demands on you, at least not for the moment.

Third, we do have those lovely computers. (Or we will when mine gets out of the repair shop and I can get the local phone company to wander out here and activate my phone line.) Properly used, the Internet is a weapon of immense potential. For the first time, we have something approaching parity with the enemy media. Again let me emphasize that one proviso, when properly used. Thus far we rate only a C-plus at best,

I'd say, on the way we have used the Net. We've got some damned fine web sites out there but we have allowed the potentially unlimited resource of Usenet to degenerate into a lunatic asylum, and we have also come to regard the Internet as an end rather than a means and used it to facilitate and prop up our own weaknesses. That has to change. But we DO HAVE A WEAPON, an equalizer that can compensate for our weakness, if we can find a way to use it effectively.

Finally, we have the advantage that we happen to be right and our enemies happen to be viciously and evilly wrong. Always remember that for all our failure and weakness and incompetence, we are the guys in the white hats. Being right is not necessary for political victory, but it doesn't hurt. Our people are still capable of sensing, instinctively, that when all is said and done we are right. That may make a difference at some point down the road.

THE NATIONAL SOCIALIST BROTHERHOOD

What I am proposing is that the remnants of the movement of George Lincoln Rockwell form a secret society of National Socialists, operating in cellular form, for the purpose of securing the existence of our people and a future for White children. This society will be referred to as the NATIONAL SOCIALIST BROTHERHOOD.

There will be no organizational structure beyond the single cell, no leaders or officers beyond individual cell leaders, and each cell will operate independently of the others. There will be formal membership in the Brotherhood, which will be conferred through the swearing of an oath to Adolf Hitler in the presence of at least one other member, in suitably dignified and atmospheric surroundings as available.

Each cell will divide itself when it reaches six members into two separate cells of three each and continue on its way. The cells will have virtually nothing in the way of formal instructions or orders, except that they shall do whatever lies in their power to undermine and subvert and hamper the present Judaic world order and to bring about its destruction, to be replaced by a true National Socialist New Order.

The actual canon of the NSB shall consist of only two documents. The first will be a four-page set of instructions, including the Oath, easily photocopied and passed on from cell to cell. The second document will be The Book, an untitled manuscript document which contains an explanation of the nature of the society in which we live, the way in which it functions, the National Socialist solution to our problems, and how we will bring about change. This book will be somewhat longer but also may be copied and distributed to individuals and to cells. When someone has sworn the Oath and read the book, they will then be a member of the National Socialist Brotherhood.

What he or she does from that point on is entirely up to them. Most, of course, will continue to do nothing while salving their consciences with the idea that they are now Secret Agent U-31 behind enemy lines and therefore have an excuse for "keeping a low profile" in order to accomplish whatever fantasized "secret missions" they erect in their

minds. However, what we hope is that at least a few people will take the NSB idea sufficiently seriously actually to form genuine secret National Socialist cells and engage in various acts of psychological warfare, subversion, and propaganda, thus insuring that the National Socialist ideal survives until times change and we can operate openly.

You see the advantages here? One of the things that has become clear to me over the past year is that insofar as our Movement people will respond to anything at all---and that isn't very far---they want some kind of structure upon which to base their conscience-salving fantasy. Left on their own, lacking any mysterious and all-powerful "national headquarters" or Fearless Leader figure, they try to put together their own nameless little "cells" and invent a structure, at least sufficient to convince themselves that they are doing something.

This phenomenon was observable in the still almost insatiable demand for NSWPP Party Manuals, in many cases by people who had no association with the Party and had no intention of doing anything that the Manual directed them to do. What they wanted the Manuals for was as a substitute for a membership card, to convince their small circle of racial friends and themselves that they were doing something and involved in the solution, without incurring any risk such as would have been involved in actually trying to follow the Manual. The NSB, the Oath, the instructions and The Book will serve this purpose. In nine cases out of ten, they will be hidden away in a drawer or some secret repository of racial material and only brought out as aids for emotional and political masturbation. In that tenth case, someone will actually take it seriously, form a proper underground cell, and engage in guerilla-style NS activity. We hope.

The NSB idea will, I believe, prove immensely popular, because it relieves the closet Nazi and racist couch potato of all those annoying aspects of an actual Party which inflict emotional distress and make him feel bad about himself. There will be no demand that he stand erect and do anything which might lead to the neighbors or his employer finding out he thinks unauthorized thoughts. There will be no demands that he give up anything in his precious personal life, no constant urging for him to relocate to where his race needs him to be; he can remain in his favorite soft armchair and the big screen TV can remain plugged in while Secret Agent U-31 lurks behind enemy lines.

Above all, there will be no nagging, disturbing demands that he open his checkbook and give up precious dollars that would be so much better spent on beer or cigarettes or payments on a late model car for the little woman. In fact, the little woman need never know; keeping his secret identity as Agent U-31 from her will be a large part of the thrill.

THE SECRET LIFE OF GRUPPENFÜHRER MITTY?

Understandably, some of you are by now questioning the point in creating such a pallid collection of Nazi Walter Mitties. But remember, only nine cases out of ten will be Walter Mitties. We hope. Always remember our present goal: to survive into the 21st century until times change.

Let me be brutally frank: this is a life raft. It may leak, but it's all we've got. The object of the NSB is to keep the last glowing embers of the fire lit by Lincoln Rockwell in 1958 from blinking out. Because if we don't do something, in a few more years it's all going to be gone. Rick Cooper and I are the last ones who can remember the sun coming up over Wilson Boulevard in that little literature room wherein nestled the hope of an entire race. The flame has to be kept flickering until we get some more fuel and oxygen and heat to feed it.

Has anyone got any better ideas?

THE BOOK OF THE NATIONAL SOCIALIST BROTHERHOOD

I. RACE

Race is the most important fact of human existence. Every human achievement, every human idea, every human act, is somehow related to race, because every act or creation is the product of the racial personality of the human producer of that act or creation.

Race is THE North American issue. It always has been, ever since one of Columbus's sailors shot the first Indian with a crude matchlock musket back in 1492. Every problem which America faces today, every crisis of the economy or of the spirit, is in some form or another eventually traceable back to the problem of race.

Commander George Lincoln Rockwell was once asked to define the difference between a National Socialist and a conservative. The Commander replied, "*A National Socialist is someone who wants to save his race. A conservative is someone who wants to save his money.*" National Socialists are not concerned with saving anyone's money. We are concerned with saving Western civilization by preserving and improving the White, Aryan people who created it. The goal of National Socialism may be summed up in the immortal Fourteen Words of David Lane: "*We must secure the existence of our people and a future for White children.*"

The central concept of the entire National Socialist philosophy is race. National Socialism has been equated with Fascism; it is not, for while Fascism sees the state as the ultimate entity and arbiter in all human endeavor, National Socialism holds that the ultimate key to every aspect of mankind and his life is race.

Every civilization, every culture, every historical achievement is the product of the racial personality of those who created that civilization. Destroy a race and not only living beings are destroyed, but an immense hole is ripped in the entire fabric of this planet's existence. Destroy the most intelligent and creative and dynamic race of all mankind, the Aryan, and damage has been inflicted a damage on the human species which can never be recovered or repaired.

The racial issue can be boiled down to one very simple question: who does the world belong to? More immediately, who does the continent of North America belong to? Does it belong to the Aryan peoples of Europe who settled this land after braving a perilous ocean voyage to reach it, tilled its soil and grew crops, built homes and communities here, created its legal and social and political institutions, created everything we recognize today as America? Or does it belong to the various black and brown races of the Third World, who have contributed nothing except sporadic physical labor? Whose sole claim to it is the mere fact that they happen to be here, and who have caused immense damage to North America through their anti-social behavior?

The idea that we are supposed to share this land in some kind of grotesque, squalid multi-racial Babylon is simply stupid. The mud races have done nothing to earn citizenship or rights of residence here which is in any way compensatory for the immense damage they have caused. The black man in particular has contributed very little to America except physical labor. His contribution is on a level with that of the horse, valuable to be sure in a limited way, but like the horse, the black man is now obsolete and has been since the development of agricultural machinery and the internal combustion engine. There is no moral or economic or social justification for keeping the black man around any longer, and many pressing reasons for his removal. The same goes for the masses of Third World immigrants. They are contributing nothing at all that we really need, except cheap labor for multinational corporations which keeps White wages low.

History demonstrates quite clearly that multi-racial empires do not prosper, and in the long run do not survive. Every society which has ever attempted the multi-racial, or even multi-ethnic experiment has failed miserably, from ancient Rome down through the Hapsburg monarchy of Austria-Hungary, to the Soviet Union and Yugoslavia of today. America will not survive the curse of multi-racialism any more than those other societies did. There is no magical law of the universe exempting North America from the basic principles of human biopolitics. One of those basic principles is that racial purity strengthens a society; whereas diversity weakens and eventually destroys it. Look at the few remaining stable and prosperous countries that exist today: Japan, Switzerland, Sweden, Taiwan, Korea. All of them are racially homogenous, not "diverse".

No nation is born "diverse". Diversity is indeed the antithesis of nationhood. Nations arise in large part from their very racial, religious, and cultural unity and uniqueness. "Diversity" is an unnatural as well as an unhealthy condition that can only afflict states in national decline. The multi-cultural, and especially the multi-racial state, carries in its makeup the seeds of certain national destruction. All multi-cultural nations must by definition be in a state of political, moral, economic and social decay. Greed and corruption invariably characterize the government of the multi-racial state, coupled with oppressive measures directed against its citizens. Lies and deceit are the stock in trade of multi-cultural media, politicians and educational institutions. Democracy, a flawed system to begin with, is perverted into an instrument of disastrous cultural and biological leveling. From democracy steps forth the cruelest of tyrants.

In modern times "diversity" is instituted from the top down as an elitist ruling-class tool used to play one or more racial or ethnic groups against another. The ensuing cultural melee serves the political designs, economic goals and power needs of elitist rulers and their sponsors while destroying everything worthwhile in the affected society.

In the twenty-first century, multi-culturalism is being used as a hammer to forge an artificially created, unintelligent, compliant brown-skinned people who will compose the obedient states of the New World Order. As a weapon of post-modern political warfare, multiculturalism has few equals, which explains its use currently against all of western Europe, the United States, Canada, Australia, and New Zealand. Deliberate fragmentation

of these nations into politically disharmonious units, and the resultant loss of national identity and purpose, are requirements of the New World Order.

Who will compose that New World Order? An Anglo-Zionist ruling class, extensively Jewish and discreetly homosexual, consisting of an economic hierarchy of wealth that replaces the natural hierarchy of talent, courage, and virtue. A force that views countries and the people who live in them first as economic targets to be exploited, and second as military targets to be destroyed and gutted of assets if they resist.

The mere fact that the black and brown races happen to be in North America, through whatever accident of history or violation of immigration law that came about, does not give them the right to a free ride on the White man's back for their entire lives. Yet this is, essentially, the demand of the multi-cultural idea, that people with dark skins be given goods, services, benefits, and advantages which they have not only done nothing to earn, but which they do not know how to use properly and will only destroy and contaminate. The leveling in a multi-cultural, "diverse" society is NEVER upward, always DOWNWARD as far as the White man is concerned. Racial integration is like mixing horse manure and ice cream---it does improve the manure somewhat, but it doesn't do much for the ice cream.

We have been taught by our lords and masters to view "racism" as evil and wrong. It is not. Racism is in fact the purest expression of patriotism. We live today in a world where old ideas of geopolitics are being replaced by biopolitics. Racism is right because racism is the will of nature. Racists are doing the work of nature. They are aiding nature by helping to protect the most important of Nature's creations: the different races that nature has evolved over many millennia. Racism is nature's way of trying to protect her own creations. Thus racism aids and encourages further evolution---that is, it aids the development of the separate races which exist. The truth about so-called anti-racism is that it is unnatural, unhealthy and dangerous. Anti-racism actively encourages the destruction of nature; it is anti-evolutionary. The society that is based upon such stupid ideas is an unnatural, unhealthy society doomed sooner or later to be destroyed, because such a society will destroy nature herself. We human beings are nature made manifest, and we are subject to her laws just as much as are other forms of life. If we forget this truth and continue with our race-mixing, we shall perish.

In the real world of nature, what is important is RACE. We as individuals are only a part of our race, a nexus, a connection between its past and its future. The sole purpose of our lives is to defend and aid our race, to increase its chances of survival and to help its evolution. In the real world, the different races of our human species clearly exist, with these races having different characters and different cultures. In the same way, in the real world of Nature, different breeds of birds and dogs and other living things exist, with different characters or natures.

In the unreal world of the Jews, what is important is the happiness of the individual. Thus we find laws to keep the individual happy and to stop anyone insulting them or

offending them or "inciting hatred" against them on account of their race. In the very unreal world of the Zionists and the liberals, it is claimed that human races do not exist--- but quite how we can be accused of inciting hatred against what does not exist, no one bothers to explain.

In the real world, the natural world, race is more important than our personal happiness or the happiness of any individual. If for the survival and further evolution of race, some individuals must suffer hatred, be offended, or die, then it must be. This is the truth of nature which racism upholds. We must uphold this truth in the face of the unnatural stupidity of others. We must champion the race before the individual. The well being of the race is far more important than the happiness of individuals.

Our planet that we call Earth is, or rather was, a place where nature tried to maintain a balance. In terms of our own species, the balance of nature is the division of races with each race having its own territory where it can live and flourish. We have profoundly upset the balance of nature with the mixing of races. Racism is the only way to restore the balance of nature and so continue with the separate development of races.

Anyone who is against racism, for whatever reason and from whatever motive, is an ignorant and criminal person who endangers all life on this planet.

THE BOOK OF THE NATIONAL SOCIALIST BROTHERHOOD

II. THE CONSPIRACY TO DESTROY THE WHITE RACE

The primary problem that National Socialism faces today is to change the White man's thinking and help him recover his ancient courage. Aryan man must reinvent and reinvigorate his own racial personality from within. It is the only way we will be saved. We must save ourselves and conquer the enemy within as our top priority. However, our race does have some very dangerous external enemies, and these enemies operate from a position of power without parallel in world history. To be blunt, there is a worldwide conspiracy to kill us all, and it is winning.

At the beginning of the 21st century, there is an establishment agenda that clearly calls for the enforced physical, social, cultural, and biological admixture of White North Americans with the negroid, mongoloid, and mulatto races. The ruling elite intend to achieve racial "harmony" by deliberately altering the racial and ethnic demographics of North America, and eliminating the Caucasian race through interracial marriage, or at least interracial sex, to produce a new, hybridized, raceless, classless brown "American". It is believed by those in power, although probably incorrectly, that this new coffee-colored citizen will be pliable, of limited intelligence, and will function as a perpetual source of cheap labor for international finance capital.

How did all this come about? How does the left-liberal agenda operate in practice? Just saying "it's the damned Jews" may be comforting, but is not a sufficient or entirely accurate explanation. The problem is much more complex than that.

Alternative political people all across the spectrum tend to bandy the term "New World Order" around quite a bit, generally as a designation for the government or the Jews or the Trilaterals or the multinational banks or just "them." The NWO is all these things, but it is much more. The New World Order not just a collection of institutions and people, it is an idea, a genuine (if thoroughly evil) vision of mankind's future. It has also been called the Global Consumer Plantation. Our present ruling elite envisions, and is trying actively to create, a world social and economic order ruled by themselves, commanding a worldwide population of homogenous, coffee-colored industrial serfs bred from the forced admixture of all the present races of the earth. Another way to describe the New World Order would be that it is the final, logical development of capitalism.

For several centuries, first Europe and then the rest of the world have been torn between two conflicting philosophies, both of them Jewish in origin. Capitalism arose from the collapse of the feudal system and the infiltration of Jewish bankers and moneylenders into the European economy during the Renaissance. The more recent Marxism is, of course, named after the rabbi's son Karl Marx, but its tenets are actually of older and of somewhat obscure origin. Marxism as a philosophy might be called the politics of envy, the human desire to take what someone else has, elevated to an ideology. Commander Rockwell referred to Marxism as "the organized revolt of the non-White masses of the world against the White man."

Both Marxism and capitalism share the same materialistic, essentially Judaic view of mankind and the human condition. Both consider man to be an ECONOMIC ANIMAL, and see human beings as interchangeable units of economic production and consumption. People are merely components of the great economic machine either of the marketplace or the "dictatorship of the proletariat". People have only material requirements that must be met at a certain minimal level in order to keep them functioning in the economy. People have no spiritual needs or identity, no culture, no race, no religion, no aspirations, no independent thought. They exist solely to be installed like spare parts and worked until they are broken or worn out, when the system then pulls them out, throws them away, and installs a replacement part.

It is essential to understand this view of mankind by both capitalism and Marxism, in which the individual is a soulless, raceless component in a human anthill. This has led to the imposition of the thoroughly bogus idea of racial equality in both capitalist and socialist countries. Both systems are instinctively aware of the fact that their ideology is incorrect, that men are not soulless economic units whose sole purpose in life is to work and to consume and generate profits for the elite. But instead of accepting nature's human creation and changing their ideology (thus giving up their profits and ruling elite status), both Marxism and capitalism seek to change mankind into the coffee-colored, mindless, cultureless mass of docile workers their philosophies envision. This is why both Marxism and capitalism are evil. By seeking to recreate mankind to fit their own ideas of what men and women should be, they are challenging God. Like two demented moral Frankensteins, Marxism and capitalism have both decided they can do a better job than the Creator.

It is now apparent that Marxism per se has lost the contest, at least for the time being. Future economic crises may lead to a revival of traditional Communism. However, capitalism has by now absorbed a number of welfare-statist aspects of Marxism. What we have now as a result, at the beginning of the twenty-first century, is a kind of meld between the two. There are some signs that capitalism is reverting to its older, nineteenth-century laissez-faire form and by the next century, if unchecked, may have eliminated all of the aspects of Marxism it assimilated during the time of competition. In any case, capitalism is now moving full speed ahead to seize control of the entire planet and its resources, and to create the pliable brown-skinned workforce it requires on the global plantation for the generation of obscene profits, the like of which the world has never seen before. This effort is, of course, spearheaded by the United States, and behind the U.S. the world corporate power structure of international finance.

We see evidence of this in the growing tendency towards military intervention around the world, actually a form of piecemeal conquest. The bombs rain down on any small country that tries to assert its own sovereignty. The blue-helmeted UN troops come to "peace-keep" and somehow they never seem to leave. We see this in the virtual abandonment of any immigration control in North America and throughout Europe. White countries are being flooded with Third World mud and already we can see published references in the controlled media to "eliminating racism by eliminating race," i.e. mass compulsory interbreeding. We see this in the forced unification of Europe; in NAFTA and GATT; in

the looting of Russia and the Eastern European countries by corporate buccaneers. When the news is studied from this viewpoint, all of a sudden things start making sense.

Is it all a great, huge conspiracy on the part of the Jews or other sinister forces to destroy the White race of people? Yes, and no. It's a good deal more complicated than that. The role of the Jews in all of this should not be ignored and will be dealt with further on, but neither should it be overstated. They are a significant part of the problem, but not the whole problem. The problem essentially lies in the inner spiritual weakness and confusion of White men throughout the world. Once the White man changes his thinking and recovers his ancient courage, our ultimate victory is certain. We are still superior to our enemies, should we ever decide to exert the necessary effort of will to change the situation.

The most dangerous of our enemies are not Jews per se, but a small group of people, mostly men but an increasing number of feminist women as well. Some of these people are Jewish and some are not, but all of them share certain common goals which are antithetical to the survival of our race as well as to basic human decency. These people between them control a collective worldwide reserve of wealth so vast that it is beyond measure and beyond the power of the ordinary man to encompass in his mind. What has happened to America is due to the activities of this kind of people and their predecessors, activities that date certainly from the eighteenth century and possibly earlier.

These activities, both economic and political, involve a wide range of factors. What are these factors and how have they interacted in order to create the atrocious mess we have in the world today? Is there a sinister group of conspirators who periodically meet in secret to plot the destruction of Aryan man? The answer has to be both yes, and no. Many would say that the overlapping Bilderberg group, the Trilaterals, the CFR, the ultra-rich and powerful crowd that gathers at Bohemian Woods and so forth, would fill that bill. It is true that the formulation and the active implementation of violently racially destructive policies against the White peoples of the world are a large part of their agenda.

But they are not the entire agenda. To these incredibly rich and powerful people, the destruction of the White man is a means, not an end.

What groups like the Trilaterals, Bilderbergs, etc. are after is POWER. World power. These men and women want to rule the world, and they have come closer to it than any mere Genghis Khan ever came. They view the destruction of the Aryan race and all other races as a vitally necessary part of their plan, just as they view the destruction of all existing religions as an equally vital part of their scenario. True, there is a good deal of specifically anti-Aryan hatred which has been injected into this witches' brew of madness and arrogant, grasping ambition by the extensive Jewish element within these complex power structures. But this is secondary to the principal goal of amassing control of all wealth and all state power on this planet.

The destruction of race and religion is necessary to the implementation of this cruel and monstrous agenda because these plutocratic capitalists share a vital attribute with the

Marxists: they view man as an economic animal, as livestock, an organic unit of production and consumption devoid of any separate personality, spiritual elements, or individual rights. Things like race, religion, nationality and ethnicity are wasteful and inefficient, from the viewpoint of the Anglo-Zionist plutocracy. They distract people from their true function in life, which is making mega-profits for huge multinational conglomerates through their labor and through buying products. Therefore, such annoying distractions as race and religion and ethnicity and national borders are to be abolished. It is a plan breathtaking in its unspeakably arrogant disrespect for nature, God, and the human spirit.

Our future has been mapped out for us. The world of the next century is to be transformed into one great, tacky global shopping mall. It is to be ruled by a small financial and technological elite, largely Jewish and homosexual, and populated with masses of raceless, cultureless, pliable brown wage slaves who are born and raised for the sole purpose of labor, and who are slopped like hogs with cheap consumer goods until they become too old to work. Then they will be euthanized so the elite aren't burdened with the expense of their upkeep in old age.

How did such a monstrous conspiracy come about? What are its historical roots? For the sake of brevity and simplicity, we will concentrate on how the conspiracy developed here in this country, in this century. The following summary is very much simplified.

Beginning in the era of Woodrow Wilson, American capitalism and what might be called Eastern Establishment liberalism, which even then was heavily Jewish-influenced, recognized certain common interests and formed an alliance of convenience. That alliance, albeit fraught with friction and factional warfare, continues to this day. This was not a case of the two groups sitting down like Cosa Nostra crime families and dividing up the turf. It was a long and cumulative process that took several decades.

At first this tenuous alliance between Ivy League do-gooders and mega-rich robber barons was less the product of conscious policy than of mutual self-interest leading to the development of certain consistent, interlocking behavior patterns. For example, in the 1920s the capitalists were scared witless of Bolshevik revolution in this country. They found an alliance with Wilsonian liberals (and Cosa Nostra gangsters) to create docile, controllable, mildly socialist but basically harmless labor unions like the AFL and CIO to be the lesser of two evils. Along with this came grudging increases in pay and betterment of working conditions in order to stave off serious trouble on the factory floor. True, in the 1920s and 1930s and even since then, there have been glitches and occasional violent, costly strikes and lockouts. The largely unspoken and unadmitted alliance between intellectual liberalism and international finance capital was not perfect. It never has been. But no serious threat to the Fords and Mellons and Carnegies and Rockefellers has ever developed in this country, and that was the objective of the partnership. Liberalism has reaped a reward of almost unlimited funding, in exchange for confining itself to social engineering and leaving the economic power structure essentially untouched by reform.

Both elements of this monstrous dichotomy were, of course, heavily infiltrated by Jews, and in addition the liberal half was riddled with out-and-out Marxism implanted by the Comintern in Soviet Russia. Yes, this seems contradictory. It WAS contradictory, and that fact did not escape notice at the time. If the rattled Comintern hadn't started preaching "Popular Front" type activity against the rising forces of National Socialism and Fascism, the whole thing might have fallen apart. But in the long run, the self-interest of the rich and powerful is capable of overcoming any contradiction.

The classic example of the way all the various elements overlapped in practice to form one single alloyed Establishment may be seen in the life and career of Soviet spy and convicted perjurer Alger Hiss. The whole unholy hybrid may be summed up in a single word: Rockefeller.

Both capitalism and liberalism made the decision to pursue their twin agendas in tandem: capitalism sought unlimited profit while liberalism sought to implement its social and racial agenda and transform the nature of mankind itself, from human to insectoid. Liberalism was given the green light by capitalism to do this, as well as massive funding through a variety of "philanthropic foundations" and other fronts, on the understanding that there would be no serious assault on the multinationals or interference with profits. It should be understood that capitalism has always possessed the power to crush liberalism at any time, and that capitalism still to this day retains the power to crush liberalism at any time.

The rot began noticeably to set in back in 1933, with the election of Franklin D. Roosevelt and the elevation of his wife Eleanor, an unspeakable lesbian hag, to the position of First Lady. Since that time American society and government have grown into one gigantic cesspool of moral putrefaction, culminating in the revolting political and social perversions of William Jefferson Clinton. White working Americans pay for it all, in cash, in the wasted lives and empty futures our children face, and in the mongrel babies our air-headed Kelly Bundy-type daughters are producing because they have been so cruelly and viciously deceived into betraying their race and their heritage. Neither of the two Roosevelts, ideological partners in crime, were encumbered with a single scruple. Neither of them had any loyalty to America as normal people understand the term, and neither gave a tinker's damn who was hurt in the process of their activities. Since the White majority had the greatest stake in the old Republic, it was the White majority who suffered most when the Republic was corroded and destroyed.

In 1933 the liberal/capitalist combine, the original ZOG, managed to seize state power in a bloodless coup d'etat by electing Roosevelt as president. The Conspiracy has been in power ever since, maintaining control through the Roosevelt-established bureaucracy and the corrupt judicial and legislative branches of government even when "conservative" Republican presidents have been in office. In 1935 Roosevelt's only possible presidential rival, the charismatic populist Senator "Kingfish" Huey Long from Louisiana, was assassinated by a Jewish gunman employed by the Conspiracy. After that it was plain sailing. There would never be another serious electoral challenge to the establishment..

During Roosevelt's four terms in office the Conspiracy managed to accomplish almost all of its objectives. They seized control of the national economy and split it into more or less equal shares between the state and the multinationals of the time. They instigated a war which destroyed the two main international stumbling blocks to their ambitions, National Socialist Germany and the Asian empire of Japan. The millions of human beings who died in this war have never troubled their sleep at all. They created the United Nations as the blueprint for the future world government which would take over once all national sovereignty was abolished. The Jews got their "cut" in the form of the land of Palestine, which they wanted to fulfill their messianic racial delusions.

There were two flies in the ointment, one of them widely recognized by historians and one almost unremembered. The first was when Joseph Stalin, unhappy with his slice of the pie, refused to join the Conspiracy and brought the Iron Curtain crashing down after the Second World War. The Cold War caused a delay of almost fifty years in the creation of the New World Order that should have been imposed after 1945, according to the original timetable laid out in the 1930s by the first Roosevelt/Hiss generation of Conspirators. The second, now almost forgotten check occurred earlier, in 1935, when Franklin Roosevelt's attempt permanently to stack the U.S. Supreme Court with liberals by adding ten more justices to be appointed by him was defeated, the last real victory the United States Congress ever won for the American people before it became totally corrupt. If the Conspiracy had managed to pull this off then the Constitution would have been destroyed overnight and some form of overt "social democratic" régime would have been created. (Social Democracy is the European term for the political alliance between liberalism and capitalism.) As things were, the Conspirators were forced slowly, almost imperceptibly to chip away at the Constitution until the 1950s when they finally got their liberal majority on the court.

It is important to remember that our enemy is not a monolith. What we are dealing with is a very loose, very fluid movement with many whirls and eddies and ideological digressions. Down through the years the Conspiracy has gone through a number of metamorphoses. Ingredients like 1960s radicalism, environmentalism, feminism, organized sodomy, an obsessive Zionism in foreign policy which demands complete subservience to Israel, the civil rights industry and the culture of victimhood, all of these and a hundred other variations on the idiotic liberal theme have left their impression. Capitalism's contributions to the ongoing Conspiracy have included several minor wars, unlimited Third World immigration, the "liberation" of millions of women into the workforce to increase the labor pool in order to keep wages down, and other bits and pieces related to the pursuit of unlimited profit.

The Conspiracy is still essentially an alliance between the liberal intelligentsia and the most ruthless elements of plutocracy, each with their respective Jewish cohorts, but it has grown and mutated into bizarre shapes which would probably have even Franklin Roosevelt turning in his grave, although no doubt his wife Eleanor would have approved. Before the Roosevelts the social and racial aspects of the Conspiracy were underground, largely unspoken, and not fully understood or accepted by the people involved. Even the

most rabid capitalist of the Woodrow Wilson era, for example, would not have suggested such an absurdity as racial equality.

The Conspiracy is not today and never has been one single, unified movement. It is a collection of special interests, belief systems, and trends which have flowed in the same direction like a river but which is comprised of water from a number of tributary streams. In a way this is bad--a single organized tyranny can always be overthrown, eventually. A whole social, historical movement is much harder to divert, halt, and reverse. But it can be done. Don't ever think that it can't be done! These people are not invincible and their victory is not inevitable.

The trouble and expense which the implementation of the great Agenda is causing has begun to outweigh the profits. The whole gargantuan, generation-spanning Grand Plan has stumbled over the one great fact of life in the human experience: the reality of race.

You see, the races of mankind are NOT equal. Blacks are NOT as intelligent or as industrious or as manageable as Whites. This is the reason why service labor in this country is now largely imported from the Third World; blacks simply won't do the work any more. The welfare system has become a drain on the Establishment's wealth which is no longer acceptable, hence the so-called "welfare reform" movement which, stripped of verbiage, is an effort to get blacks back onto the plantation and make them work and produce profits and taxes. It is an attempt that will fail, as has every other attempt over the past four hundred years to make the black man economically viable.

Today the melting pot has become a festering trash heap. We allowed those infamous lines, written by the Jewess Emma Lazarus, about giving us the world's wretched refuse to be written on the Statue of Liberty, and that is what we have gotten, in spades.

Mexicans, Puerto Ricans, Haitians, mestizo Cubans, Hispanics of every stripe, Filipinos, Russian Jews, Chinese, Japanese, Koreans, Cambodians, Laotian Montagnards, Ethiopians, Somalis, Arabs of every Middle Eastern backwater---all are pouring across our borders unchecked and spilling off every airplane that lands and every ship that docks in this country. For all practical purposes, there is no immigration control of any kind in the United States. They are taking our jobs, our hospital beds, our welfare dollars, our medical and social services, our schools, and our daughters. They fill our prisons. They sell drugs to our children. They transmit AIDS and other infectious diseases. They depress wages by supplying an endless source of cheap labor. In many parts of this country they are forcing their native languages on the rest of us rather than learning to speak English as White immigrants did in times past.

The destruction of the family that has been created by forcing White women into the workforce has started to produce unpleasant and unprofitable results in the form of expensive social chaos, and a deterioration in the intelligence and competence of the workforce which is inconsistent with continuing profit. The petty wars of Reagan, Bush, and Clinton have kept the military-industrial complex going and maintained a certain prosperity, but the financial drain caused by our racial and social problems is too great to

be ignored. The judicial and administrative machinery of the Conspiracy against our racial existence is breaking down as the System becomes incompetent and niggerized itself through affirmative action. We have always tended to exaggerate the strength, the competence, and the efficiency of our enemy, and never more so than today.

ZOG's wall is rotten. A few good kicks will send it crashing down.

THE BOOK OF THE NATIONAL SOCIALIST BROTHERHOOD

III. THE JEWS

The Jew is the eternal enemy of Aryan values and Aryan culture. He is a destroyer and has always been one.

Who are the authors of the left-liberal agenda, and whose are the guiding hands that implement the plan? Who is behind this program to destroy all standards of decency and racial self-respect, to propel young White girls who are ashamed of being White into the beds of non-Whites? Who exactly is it who wants to breed a new race of mongrels? It is here we finally come to the linchpin of all racial questions: the Jew. We can no more honestly discuss race-mixing and cultural poisoning without speaking of the Jew than one can discuss disease without mentioning germs.

Time and again, White European host populations have succeeded in unfastening this destructive and parasitic host from their necks and removing them from positions of power and dominance, for the good of the Whites' very survival. Invariably, an increase in health and prosperity of the host population resulted. In England, for example, after this removal occurred there blossomed a cultural renaissance of unprecedented accomplishment, in which Shakespeare wrote his plays. The necessary precursor to these White revolts against Jewish dominance was the increase in racial feeling among the host people -- an upsurge in racial pride which fueled the movement to flush out the alien dominators from their positions of power.

However, this same group of people is still seeking to destroy the racial feeling of its host population once and for all, through the means of encouraging racial mixing along with promoting the invasion of White homelands by swarms of faster-reproducing non-Whites. Racial mixing and numerical engulfment will result in the ethnic eradication of Whites, and their subsequent replacement with a mongrelized mixed-race mass. Thus the problem of Aryan racial pride, which historically has always been the bane of Jews, will successfully be neutralized. This is the Jews' final solution for the historical problem of Aryan racial feeling: dissolution of Whites by miscegenation and outnumbering by non-Whites. In other words, the problem of White pride is being "solved" once and for all by the genocide of Whites themselves.

And it follows logically. Aryans, like any race and species of creature that walks, instinctively possess a special feeling for their own kind and a natural xenophobia for those of a different kind. This natural xenophobia exists in all beings in order to accomplish the evolutionary will towards life forms of increasingly greater speciation by segregation. You can no more eradicate this natural affinity for one's own than you can eliminate a creature's will to breathe. Since this instinct can not be completely rooted out through propaganda, there is no way to eliminate it save through eliminating the PEOPLE

themselves. This is being done by the dual forces of miscegenation and outbreeding by non-Whites in former White homelands. In this way Whites are being phased out.

By flooding White former homelands with non-Whites and effecting White miscegenation, the problem of White racial feeling will effectively be solved for all time by dissolution. Afterwards, presumably Jews feel they can carry on their traditional position of dominance and control of the society, but for the first time there will be no opposition, as the mongrelized population cannot assert racial pride, because by definition it can have none. Without a deep sense of racial pride, the mulatto population will not be able to oppose or overthrow Jewish rule.

The Jews have used their media and money power to label the natural and healthy racial instinct within all people as "racism" and have declared that specifically White racism is the root of nearly all evil in the world. This has resulted in White people feeling guilty for a natural urge within them, much like certain Christian sects made their adherents feel guilty for the urge of sex. Guilt is an excellent weapon for controlling Whites collectively. Whites demonstrate a weakness for guilt not present in other peoples. The Jews, along with peoples of other races, have sensed this weakness and exploited it in many ways. They have succeeded in making many Whites feel guilty for possessing societies of higher civilizational and technological advancement than non-Whites, and higher standards of living. They use White guilt to convince Whites "you owe us."

The most dramatic success the Jews have achieved in the effort to make Whites feel guilty is the "Holocaust" tale. This tale of endless embellishment and little evidence is their greatest weapon to dissuade Whites from opposing their ongoing racial dissolution. Every White effort to organize themselves in uncompromising opposition to is automatically identified as a form of incipient Nazism and thereby discredited. "Segregation is what the Nazis wanted," the Jews crows. "Racial purity is a Nazi ideal," they chant. "If you want to have a White society, then the next thing you'll want to do is shove Jews into ovens like the Nazis did," they yammer.

Through their Holocaust campaign, they have succeeded in convincing Whites that it is wicked to want to preserve one's own kind, and to do whatever is necessary to preserve it. However, Jews know full well that racism is not only not wicked, but it is the only force that allows a people to survive. They know that any people who do not possess a healthy affinity for their own kind will be dissolved and eradicated. They know that a homeland is the very basis for biological survival and any people without an exclusive homeland, protected by Whites and for Whites, will not be able to survive. They know that racism is not only healthy, but essential for a people's survival. They only want US to believe that it is evil, because that illusion furthers their effort to destroy the threat of White racial feelings.

Jewish propaganda in America is a great wonder. It is an unremitting propaganda, fired aggressively at the public day and night, by the vast communications industry that is, for all practical purposes, 100% under Jewish control. A mere single article printed somewhere is not propaganda; propaganda is a mass production industry. It does not seek

merely to persuade people to believe certain things. It seeks to dominate and select the range of thought within which the popular mind will be allowed to function.

In addition to the primary purpose being served by the Jewish effort towards White dissolution, Jewish dominance, there also exists another motivation: a conscious or unconscious combination of distrust, envy, and resentment towards Whites. Jews traditionally have always been looked upon as suspect in White societies and esthetically undesirable. Also, although many Jews today have obtained White genes such as blue eyes, there still exists the prominent Jewish prototype of dark hair, swarthy features, koala eyes, and a large hooked nose. This made the Jews stand out among his host societies, especially in the Nordic countries of Northern Europe. Today, thousands of Jews each year pay to camouflage their own feature to look like Aryans by surgically modifying their noses to the European standard of beauty.

In early Europe, Jews obtained a universal reputation for shrewdness in commerce, and as a result were always viewed as a sinister figure in Old European society. Reports of Jewish incidents of defrauding citizens in every country they inhabited earned them the general reputation of shysters. Furthermore, they added next to nothing to the European masters of art and music. In short, Jews have historically been distrusted, shunned, and marginalized in European civilization from the very beginning. It is likely that there exists an element of resentment and envy, if not revenge, in the Jewish effort to dissolve the White race.

It is necessary to emphasize that this Jewish promotion of Aryan racial dissolution is not so much the result of a planned conspiracy as it the result of an organic, instinctive, process. Jews are naturally and rightfully threatened by the racial feelings of their White host populations. For the first time in history, however, White homelands are being overwhelmed by non-Whites and racial mixing is being encouraged by a highly effective and sophisticated media, and it appears Jews are effectively, even if instinctively, dealing with the problem of White racial feeling, which has always been their bane. Many Aryans who begin to realize this phenomenon are fooled by specious counter arguments which maintain that there is no planned conspiracy by Jews against Whites, therefore the Jewish efforts toward White racial dissolution do not exist.

Also advantageous to these alien destroyers is the fallacious myth this group has succeeded in popularizing, which maintains that RACE DOES NOT EXIST. Along with distracting Whites from any awareness of their existence as a people and any concern for their people's ongoing eradication, this myth serves to disarm Whites from believing that there exist instincts which can serve as the primary means for group of people to unconsciously and synergistically work in tandem to dominate and subvert their society -- because of which there is not much need for organized conspiracy. The analogy of the termite here is useful. A group of termites do not "conspire" to destroy a building -- they do it naturally. Their unity originates WITHIN them, far more than without.

In the Talmud we find these words of Rabbi Baba Mezia: "Jews are human beings; the other peoples of the world are but beasts". This deranged Judaic vision of world conquest

is symbolized in the esoteric Hebrew mysticism of the Kabbalah, and by the Talmudic allegory of the World Serpent, a gigantic snake depicted as girdling the globe with the head and the tail meeting in Jerusalem. The Canadian Jewish intellectual, Max Dimont, called the acquisition of worldwide power by the Jews through the genetic admixture and destruction of every race (except the Jewish race), every nationality, and every religion (except for Judaism) "...a true Brotherhood of Man. Where would the capital of such a world order be? Why, Jerusalem, of course."

The Zionist leader Maurice Samuel wrote in 1924: "We Jews, the destroyers, will remain destroyers forever, because we need a world of our own."

Wherever there is organized degeneracy and corruption; wherever the Christian religion is insulted, ridiculed, and vilified; wherever the White woman is cheapened into a sex object and her role as wife and mother is mocked and degraded; wherever our daughters and sisters are depicted in the arms of non-Whites; wherever sex is commercialized and twisted into the loathsome perversions of homosexuality, sado-masochism, feminism, transvestism, pædophilia; wherever the White male and the Western civilization he created are abused, reviled, and subverted, there you will find the Jew. ALWAYS THE JEW!

Who created Communism, one of the crucial foundation blocks of today's New World Order? The Jews Mordecai Levy, a.k.a. Karl Marx, as well as his colleagues Friederich Engels, Karl Liebnicht, Victor Berger, Max Eastman, Daniel De Leon, Lev Bronstein (Leon Trotsky) with his armies of Jewish commissars. Marxism has been an offshoot of Judaism from day one.

Who financed the Bolshevik revolution in Russia? Jewish capitalist bankers such as Paul and Max Warburg, Jacob Schiff, and the Rothschild family.

Who created feminism, the sexual perversion which teaches that women should "liberate" themselves by rejecting marriage, home, and children and by lesbian sexual relationships? Jewesses like Gloria Steinem, Betty Friedan, Shulamith Firestone, Andrea Dworkin, Naomi Wolf, and Bella Abzug.

What organizations actively promote the murder of millions of unborn White infants through abortion? The American Jewish Congress, the B'nai Brith Women, the National Council of Jewish Women, the United Synagogues of America, the Women's League of Conservative Judaism, the Union of American Hebrew Congregations, the National Federation of Temple Sisters, the American Jewish Committee, and the North American Federation of Temple Youth have all come out in favor of the "pro-choice" agenda. Judaism is the only major American religious denomination that gives unqualified support to abortion, except for Orthodox Jewish rabbis who are adamantly opposed to abortion---for Jews.

Who created the vile "counterculture" of the 1960s which now dominates our universities, our government, and our air waves? "New Left" Jews like Abbie Hoffman,

Jerry Rubin, Mark Rudd, Bernadine Dohrn, Herbert and Bettina Aptheker, Allen Ginsburg, and Susan Sontag (who once described the White race as "the cancer of history").

In the U. S. Congress, who are the chief instigators of government violation of the Second Amendment right of all Americans to keep and to bear arms? Jewesses Diane Feinstein and Barbara Boxer, Jewish Congressmen Charles Schumer and Barney Frank, former Senator Howard Metzenbaum and present Senator Arlen Specter.

What is the basis for the Jews' universal and long-standing historical reputation for dishonesty and untrustworthiness? Every year, during the most solemn holy day on the Jewish calendar, the Kol Nidre (All Vows) oath is sung in Jewish synagogues. In fact, it is the liturgical high point of the annual Yom Kippur or Day of Atonement festival. With the following Kol Nidre oath, Jews ready themselves for another year among the Gentiles: "All vows, obligations, oaths or anathemas, pledges of names, which we have vowed, sworn, devoted, or bound ourselves to, from this Day of Atonement until the next Day of Atonement, whose arrival we hope for in happiness, we repent beforehand of them all. They shall be deemed absolved, forgiven, annulled, void, and made to no effect; they shall not be binding, nor have any power; the vows shall not be reckoned vows; the obligations shall not be obligatory, nor the oaths considered as oaths."

Whose influence thrust Great Britain into war with China to make the Far East safe for the opium trade? The Jewish Sassoon family of bankers and drug dealers.

Who were the traders in human flesh who brought the blacks to America? In the Carnegie Institute publication entitled "Documents Illustrative of the Slave Trade in America", we find the following partial listing of Jewish owners of slave ships: Abraham Pereira Mendez, Aaron Lopez, Moses and Samuel Levy, Jacob Franks, Isaac Levy, Nathan Simpson, Justus Bosch, John Abrams, Henry Cruger, Jacob Phoenix, Mordecai and David Gomez, Nathan Marston, Abram Lyell, William DeWoolf and James DeWoolf, Jan De Sweets, John and Jacob Roosevelt.

Indeed, the slave trade was almost entirely a Jewish enterprise as far as the actual financing went. Black captives were sold into slavery by their own chiefs or rival tribes on the West Coast of Africa, Yankee skippers and crews captained the slave ships on the dangerous Middle Passage and battled tropical storms, deadly diseases, hostile tribesmen on the coast and the ever-present danger of slave revolts on board---while Jews sat safe in Boston, Providence, Nassau, and Charleston and reaped the profits.

Yet despite the role of the Jews in bringing the blacks to this country in chains, who financed and directed the so-called "Civil Rights Revolution" when it served their purposes later on? Jews like Jack Greenberg of the NAACP legal department, Marvin Rich of CORE, Herbert Aptheker of the Communist Party U.S.A., Jewish symphonic conductor Leonard Bernstein who held fund-raising cocktail parties for the Black Panthers, and Rabbi Israel Mill of the Rabbinical Council of America's Civil Rights Task Force. Of the three so-called civil rights activists killed by Southern partisans in the

famous "Mississippi Burning" incident in 1964, one was a black and two were Jews.

Look at Hollywood. Jews totally dominate the film industry. Although most of the films are vulgar, violent trash, the Jews fall all over themselves in giving each other awards for producing such. Jewish propaganda films flow out of Hollywood (Schindler's List types) and across TV screens. Look around! The USA of today mirrors the Germany of 1929.

Who writes the scripts of television shows which ridicule traditional moral values, such as "Murphy Brown", and nauseous race-mixing drivel such as the thankfully short-lived "True Colors"? Wait until the end of any Hollywood movie or television sitcom and watch the credits roll. Notice all the Goldbergs, Levines, This-stein and That-steins, Silvermans, Kagans, and other obviously Jewish names.

Since Jews stick together as a race, they pull and shove each other up the ranks of corporations and pull strings ensuring members of their race are given first shot at student openings in the major universities.

The Jews in Weimar Germany used their propaganda levers to ridicule German ideals. They even slandered the memory of the fallen German soldiers of that terrible war, World War One. They encouraged race mixing in Germany as a means to confuse the sharp love of ancestry that dwells in German breasts. During the horror days of the great inflation, Jews by and large were wealthy people. They took expensive vacations while ordinary Germans starved. Today, Jews control 70% of the wealth in the U.S.A. Today, the U.S.A. is totally dominated by Jews. Virtually every newspaper or magazine is owned by Jews. Their self-serving propaganda constantly fills the TV screen. The Federal government is totally under Jewish control. US military forces are the pawn of Israel. The banks, the markets are theirs. They systematically denigrate our Founding Fathers and our heritage. Adolf Hitler arose and removed their yoke.

We must stop this malicious destruction of our culture and our nation. We must refuse to allow ourselves to be deceived, indoctrinated, and intimidated by an alien people. And make no mistake about it-the Jews are an alien people in our midst. The Jewish U.S. Supreme Court Justice Louis D. Brandeis made this point clearly when he stated, "...Let us recognize that we Jews are a distinct nation of which every Jew, whatever his country, his station, or shade of belief, is necessarily a member."

Not only are they in our midst, they are occupants of all the seats of power in this nation. They own the news media and the entertainment industry. They control the Federal Reserve Bank and thereby enjoy a stranglehold on the economic health of our people. By means of high finance, they have gained control of corporate America. Using bribery, blackmail, and deceit, they have seized control of the U.S. government along with all the power of coercive force which goes along with it; the result has been the open butchery of White separatists like the Weaver family and non-approved religious dissidents such as the Branch Davidians in Waco, Texas.

There is not only hope, there is the absolute certainty that the world will be liberated from Jewish rule. There is little hope that such a liberation will be a tidy or orderly process. We will not, for example, elect some conservative candidate who will waft us gently back to the days of McKinley, Foraker, and Uncle Joe Cannon. The world's liberation from Jewish rule will be accomplished amid thunder and violence. The whole process was already tried to its bitter end in Germany in the years between 1914 and 1945. Jewish power, exercised arrogantly over large Gentile populations, brings its inevitable reactions of violence.

Here we come to one of the great basic errors of our age, a fundamentally Jewish error. This is the belief that the masses can be managed and guided and thus the shape of history can be determined by the Anglo-Zionist aristocracy who seek to dominate the world. History has never been made in such a fashion. Perhaps history is a 98% instinctive process; Oswald Spengler has described its forms and norms brilliantly. The liberal theory of history is bound to come to grief because it is based this fundamental error: the overestimation of the ability of the Conspirators to control events. The modern Jew is not a brilliant maker of the future, he is merely a pyromaniac in a powder factory. He wanders ignorantly among the dangers of human instincts, human lusts, and human reality.

For Aryan man there is only one alternative. We were shown the way by the Third Reich and by the German nation, who for twelve glorious years refused to act like rats in a maze knocking themselves out for a bit of cheese. In 1933 the Germans broke the plantation, and it took the entire world to force them back on again.

But times are different now, and the New World Order is in fact far weaker and more disorganized, more corrupt and more confused and less able to suppress rebellion than it was in 1939. National Socialism survives even in Germany, despite the most vicious persecution. Like Marxism, unrestrained capitalism DOESN'T WORK, although it does function more effectively, but for a time only. Eventually capitalism's contradictions catch up with it. The New World Order is already starting to fumble.

Our victory is not only possible. It is certain.

THE BOOK OF THE NATIONAL SOCIALIST BROTHERHOOD

IV. NATIONAL SOCIALISM

What is National Socialism?

National Socialism is a world view (weltanschauung) for White people, based on the ideas and concepts of the German racial nationalist philosopher and statesman Adolf Hitler (1889-1945). National Socialism was adapted to the political and racial conditions of the United States by the late U. S. Navy Commander George Lincoln Rockwell (1918-1967).

Owing to the tragic and unnecessary suffering which took place during the Second World War, and because certain powerful elements in our society to this day maintain an interest in obscuring and concealing the truth, half a century after the war's end massive misconceptions still exist in America today about what National Socialism was and is. The National Socialist body of belief is founded on three principles:

1. **NATURAL ORDER.** We believe that the universe is governed by natural laws. In order for man to be happy and successful, he must first learn what these laws are and then follow them. We believe that man is a part of the natural world and that he is in no way separate from or distinct from it. Because of this, we believe that society should be structured in accordance with the laws of nature, and not in opposition to them as is the case today.

2. **RACIAL IDEALISM.** Racial idealism is based on the love of one's own people. It means placing the interests and the welfare of the racial community to which you belong ahead of your own personal interests and desires. As racial idealists we have no wish to harm, exploit, or persecute any other racial groups, despite a persistent media propaganda campaign of abuse and deliberate falsification to the contrary. We are only interested in protecting our own people against extinction, a fate all too likely is nothing is done about present conditions in America.

We believe that all men are NOT created equal. Just as every individual has his own strengths and weaknesses, so each race has certain qualities that make it different from other races. We believe that the White (or Aryan) race has the right to maintain its own biological, cultural, and political independence and integrity, and that we have the right to control our own destiny. We also believe that the White race has the right to defend itself against all physical, economic, and spiritual assaults, no matter where they come from.

3. **THE UPWARD DEVELOPMENT OF THE WHITE RACE.** We want to do more than just defend our race; we want to see it improve. This can be done by encouraging a high birth rate among those sections of the White population which are the healthiest, strongest, and most intelligent. At the same time, our science should work to eliminate hereditary weaknesses and defects among our people. Our goal is that each new generation of White children will be better than the one before it.

National Socialism does not advocate or teach any kind of racial hatred. It simply states the reality of nature: that different races have different abilities and different needs. These different abilities -- given by nature and result of hundreds of thousands of years of evolution -- cannot be changed by social programs, by political dogma or by enforcing dictatorial policies of racial integration which effectively undermine and destroy Aryan identity and Western culture.

The reality of National Socialism, as distinct from the lies about National Socialism ceaselessly propagated by its enemies, is that it is concerned primarily with the welfare and future of Aryans, and does not desire other races to be or become 'second-class' citizens or slaves in a future National Socialist nation. Rather, it desires the complete geographical separation of Aryans from all non-Aryans as the only means of creating a civilized, harmonious way of life for Aryans. Neither does or would National Socialism encourage the genocide of other races - that is a lie (like the lie of the Holocaust) ceaselessly spread by our enemies in order to discredit National Socialism and in order to brainwash Aryans into accepting anti-Aryan, and anti-evolutionary, policies of racial integration. Instead, in its relationship with other races, a National Socialist society - once established and secure - would encourage those other races to become aware of their own racial identity and uniqueness, so enabling them to create their own ethnic states dedicated to the well being and advancement of those other races.

The present-day opponents of National Socialism are not other races, but those people, political parties, interest groups or governments that seek to undermine Aryan identity and Aryan culture by pursuing social and political policies detrimental to Aryans. The enemies of National Socialism are those who oppose the creation of an Aryan homeland, and those who oppose the racial principles and ideals of National Socialism.

Since National Socialism is an expression of the nobility of the Aryan, it represents all that is best, and thus civilized, about the Aryan. National Socialism is a conscious affirmation of those values that are central to civilized conduct -- honor, loyalty and duty. National Socialism is also an expression of what it is to be human. It expresses the essence of our humanity, of how we came to be thinking beings [the evolution of races] and what is necessary for this evolutionary development to be preserved and extended. These things are race, and racial character as evident in the individuals of a particular race.

Fundamentally, National Socialism seeks to create an Aryan homeland and within that homeland the right social, political and spiritual conditions to enable civilized individuals to flourish. National Socialism seeks to encourage civilized conduct as it seeks to create a civilized way of life for Aryans. Accordingly, National Socialists champion and represent that noble idealism which is essential to civilization.

The primary concern of National Socialism is the Aryan, with creating a better future for Aryans. National Socialists are motivated by a genuine concern for their own people, their own heritage and culture. They wish to make their noble idealism real. They wish to inspire other Aryans with this noble idealism. This is a positive, healthy and civilized.

National Socialism desires the Aryan to fulfill that unique destiny that National Socialism believes has been given to the Aryan by nature. This destiny, essentially the creation of a Galactic Empire, involves the Aryan and only the Aryan. It does not require the subservience of other races, or their destruction. It requires the creation, by Aryans, of an Aryan homeland and then the creation of a truly Aryan way of living and thus the emergence of a new civilization greater than any existing hitherto. The immediate aim of National Socialism is to make real, for the majority of Aryans, the goodness, the nobility, the hopes and aspirations that we Aryans hold in our hearts. Whatever our enemies may say, whatever their propaganda may express, this is the simple truth about National Socialism which they, for their own evil ends, are trying so hard, so brutally and so hatefully to suppress.

When we look around us and see the degree to which society has deteriorated, anyone could be forgiven for believing that the situation is beyond recovery, that America is simply too far gone to survive, and there is no hope at all that anything will ever change. Our world is not only controlled by soul deadening Jewish materialism, but it's full of madness. Drugs, AIDS, rampant sexual perversion, homeless trash on every street corner, rampant race-mixing on television and at every turn, unspeakably brutal crimes committed mostly by non-Whites against White victims, but also on occasion committed by soulless White people who have given in to the dark side. There is pervasive corruption and dishonesty in every aspect of government, economic chaos and increasing White poverty, affirmative action, pointless stupid military invasions of Third World countries. All these things and more are the byproducts of a century of liberal democracy.

It's overwhelming. No wonder the vast majority of White Americans have simply given up and they're just hunkering down trying to stay out of it all and survive. But that is what you as a National Socialist **MUST NOT DO**. It is your racial duty not only to fight against the Judaic evil that pervades the world, but to do so with faith and hope in your heart that victory will some day be ours.

As a National Socialist you should also be studying world history, extensively, and when you look at the past you will observe one historical truth above all others: nothing lasts forever. Always hold on to that thought. Babylon, Carthage, Rome, the Byzantine and Ottoman Empires, Tsarist Russia, the British Empire -- some of these governments and societies lasted for thousands of years, and all of them thought they would last forever. They were wrong. ZOG thinks it will last forever, and ZOG is wrong too.

The struggle in which we are engaged can be categorized in many ways, but one of the best and most accurate descriptions is that we are part of a conflict between two value systems: materialism, which is essentially Jewish in nature, and idealism, which springs from the Aryan racial personality. Materialism places its primary emphasis on **THINGS** rather than on people. It is a world view that considers man to be essentially an economic unit of production and consumption rather than a thinking, spiritual being. Thus we can see that both of the two world views which have held Western society in thrall during this century, Marxism and capitalism, are both variations of Jewish materialism. Hardly surprising, when one considers that Jews created them both as organized philosophies.

Judaic Marxism and Judaic capitalism have very much in common despite their ostensible opposition to one another. Both systems practice centralized state control of every aspect of human thought or activity, although capitalism sometimes does this in a milder and gentler form. Both Jewish materialistic systems view human labor as a commodity to be bought, sold, and regulated like any other industrial resource. Finally, both Marxist and capitalist régimes rigidly forbid any deviation of thought or purpose from their citizens, and severely punish anyone who attempts to find any way out, politically or religiously. The Soviet Union had the GULAGs, while in this country ZOG murdered the Weaver family and the children of Waco. The difference is only a matter of style.

National Socialist idealism, on the other hand, believes in quality of life as opposed to quantity of people and consumer goods. National Socialism understands that, as the saying goes, man cannot live by bread alone, that he is more than a producing and consuming animal. Human existence must have some kind of religious or spiritual aspect if it is to have meaning, and it is essential that a healthy society provide development of everything that is good in the human character -- courage, creativity, a sense of civic duty, self-sacrifice, love of family and of Folk, a reverence for the past and for the entire mystery of life.

These are not material values, and we see every day in America what happens when these moral and ethical attributes are denied and suppressed. White Americans today have lost all sense of direction, what remains of their traditional culture and values are crumbling under the onslaught of degeneracy and materialistic money-grubbing, and they have become spiritually weak and soft as butter. It is time for a moral and ethical system based on racial values and racial idealism to step forward and assume responsibility for cleaning up this mess, but before we can change society we must first change ourselves inside, through the National Socialist ideal of Adolf Hitler.

To be a National Socialist, a Nazi, a White revolutionary in modern-day America is the most difficult task one could possibly undertake. No other lifestyle is as vilified and attacked by the powers that be. The government, the media, every cultural and political institution, Hollywood, and even our own friends and family members are lined up against us. Almost overwhelming pressure is exerted against us to conform, to go with the flow, to submit to the inevitable. Every day an avalanche of deceit and lies is hurled down upon us. We are insulted and spat upon by the very people for whom we are risking our lives and freedom to save. The people we wish to liberate from political tyranny and racial slavery hate us, and actually join forces to march against us side by side with the same reptiles who wish to enslave us forever.

A true National Socialist does not enter into the Movement in search of some petty personal gain. He enters the battle for the sole purpose of combating the enemies of his Folk. Commander Rockwell said that the purpose of life was to struggle for what you believe in and to enjoy the struggle as much as you can. That is the very essence of the National Socialist's existence, to struggle against those who seek to destroy his Race and to have fun doing it.

A National Socialist must adopt an aristocratic conception of life. He must understand the simple fact that Aryan man achieves his full potential only when he abandons his concern for material comfort and lives the robust life of the condottiere, a life animated by acts of heroism and adventure. He must completely turn his back on all the degeneracy and selfish debaucheries of the modern Jew-dominated world. He must be a man against time. Everything the Jew stands for he must hold in utter contempt.

To be a true National Socialist it is essential to immerse oneself completely in the National Socialist ideology. Just as a serious and dedicated Marxist devotes hours of his time to the study of the work of Marx, Lenin, and Trotsky, a sincere National Socialist must be thoroughly familiar with the works of the great writers and theoreticians of our Tradition. He must read Hitler, Rosenberg, Codreanu, Rockwell and Goebbels. A constant, ongoing study of National Socialist theory will reinforce his National Socialist faith and nourish his mind and spirit with nutrition of the soul.

Isolating oneself from family members, old friends, and so-called normal society is an extremely difficult task. But it is absolutely necessary. When one puts on the Swastika armband and declares oneself to be a National Socialist, one must be prepared to make the sacrifices that are required. A true National Socialist not only works day and night for the cause of racial revolution in society, but he must also be prepared to create a revolution within himself. He must transform himself into a New Man, a political soldier of Adolf Hitler.

THE BOOK OF THE NATIONAL SOCIALIST BROTHERHOOD

V. ARYAN AWAKENING

All of the terrible things that have happened to our world have to do with one central problem: the decay of the Aryan character, both collectively and individually. More and more each day, it becomes clear that character is the key to our racial destiny.

We fail because we haven't got it. Those of us who do are mostly the older men and women among us who grew up in a time when there were still strong and stable White families and a stable White society which instilled moral values into young people. What strikes any observer about the younger generation of White kids is that they literally do not understand what character is, why it is necessary, or why they should cultivate and display it. Their racial views and reactions have to do with human resentment of their own experiences, their own personal desire for a better world, and their own frustration and anger at being made third class citizens in their own country, and justifiably so. But even most racially aware Whites came to their racial awareness through personal persecution, not through moral perception. Almost no one comes to the Movement today solely on principle; that step is almost always a reaction to some personal crisis having to do with the wider crisis.

There is no more important issue for us to confront today. We must rebuild our racial character, integrity and courage and begin basing our struggle once more on moral principle as well as events, or we will perish from the face of the earth as a race.

We are not excused from the moral obligation to do right because to do right is difficult, or tiring, or distracts us from the television and the cold can of beer. But then most middle Americans today don't recognize any moral obligations at all. The idea that life is a framework of moral values to which we must conform and within which we must exercise and strengthen and develop our faculties of the soul has disappeared from the modern Aryan mind. The Jew has very largely succeeded in the course he started out on some centuries ago. He has achieved economic hegemony and then cultural hegemony. He has surgically removed every last spiritual or religious or moral strand from the fabric of our lives, leaving us only with materialism.

The established "Christian" churches are worse than useless. The brand of Christianity they preach is simply Zionism, surrender to the Jew and idolatry of the Jew as the alleged Chosen of God. What moral values White people have today are the ones that rise to the surface from our very racial souls, instinctively. There is no outer framework or point of reference from which we can know what is right; we must FEEL it, and generations of brainwashing and materialistic overindulgence have left our ability to feel, our ability to sense the difference between right and wrong, weak and encased in numbing layers of spiritual and physical fat.

It is human nature to try and avoid pain, to avoid stress, to avoid the effort of THINKING and drawing moral conclusions after a long day in the workplace when all

you want to do is flop down in front of the tube and pop the top on a cold one. But by avoiding that pain and that effort now, you become part of the problem. You allow the cancer to grow, to metastasize.

What differentiates our National Socialist philosophy as a whole from the various other right-wing, racial, and conservative groups all across the political spectrum, many of whom recognize the same problems that we do and who are entirely sincere in their approach to solving those problems? There are many things that make us different from all the others, but foremost of all is the fact that in addition to our political program, National Socialism is a SPIRITUAL movement as well. We do not simply advocate the implementation of specific policies and actions in order to solve specific problems. We seek to go to the very root of all our racial problems in this century, and that is the deep and profound moral and mental and spiritual decay of the White man himself.

We all know full well that if the White man, even at this late date, were to wake up and get his act together, we could clean up America in very short order and make it a fit place to live again. At the beginning of this century, the White man ruled the earth in every way that mattered. Now at the end of it, we are a minority race in the world facing extinction, about to be overwhelmed by the brown and yellow hordes of the third world. How did this happen? Things have gotten the way they have become because we as a people have ALLOWED it to happen.

The story of how this came about is long and complex, and many equally long and complex books have been written on the subject. Briefly, it might be said that White people overdosed on success. We got so proud of ourselves and our achievements at the end of the nineteenth century that we decided we could get away with disobeying the laws of nature.

The stupidest thing the White race has done during this century is that we bled ourselves to death in two hideous fratricidal world wars against Germany. Millions of young men, the very best young racial stock of Europe and America were hurled into the mincing machine of the trenches and the Eastern front. The loss of all those young White men and the contributions they might have made to the world has never been overcome. Secondly, we never were able to come to grips with the presence of the Jew in our midst, and we succumbed to the lure of the various material luxuries and diversions that the Jew implanted in our culture like poisonous seeds. It has taken nearly a century for us to reach this point of near extinction, and the reversal of this decay cannot be achieved by simply fixing a few things with a lick and a promise and then everybody settling back down in front of the television.

The first thing the White man must do is to recognize that WE are the problem, not the Jews or the Communists or the blacks or the minorities or the government or the Trilateral Commission or whatever. Those are only the symptoms of our disease, parasites and scavengers who feed off our racial sickness. We have lost the world that we once ruled because we have become weak, lazy, self-centered and apathetic, lost in our own little selfish private lives. We have allowed first our economy, then our political

institutions, and finally our culture to fall into the hands of the alien Jewish enemy who hates us and seeks our racial destruction. Above all, we have forgotten the primal natural principles of RACE. We have allowed ourselves to be lured by Jewish propaganda packaged up by Hollywood and Madison Avenue into forgetting that we are a superior people, and we have allowed ourselves to be lured into the one activity which spells ultimate racial death and extinction -- the contamination of our gene pool through race-mixing.

All of this comes because we have lost our way spiritually, because we simply are not the men that our ancestors were. Somehow we have got to become once more the men our ancestors were. The immortal Fourteen Words of David Lane state: "We must secure the existence of our people and a future for White children". That is the WHAT that we wish to achieve, but National Socialism has a secondary fourteen-word mission statement which discusses the HOW. That is "We must change the White man's thinking and help him recover his ancient courage." Note that we're not talking about killing anybody yet, or overthrowing any governments or anything of that kind. We are talking about rebuilding the minds and souls of our people. Once that is achieved, all else will follow. When our people once again have the courage to do what must be done, they will do it.

National Socialism is unique among all the various movements and ideologies that have been produced to try and counteract this coming destruction, in that National Socialism recognizes that WE ARE THE PROBLEM. Aryan man was not meant to be a materialistic consumer animal. Alone among all the races of the earth, we have the capacity for idealism and self-sacrifice and the recognition of higher laws and principles than the good of the individual. We must recover that spirit of idealism. National Socialism stands for something that no other movement does: the re-invention of the White Man.

National Socialism must change the way that Aryan man thinks right from the bottom up. We must remove from the minds and souls of our people every element of Jewish materialism: the worship of money, the worship of self, the worship of physical comfort, the self-centered egotism which says that we must leave to the state and the law and the government the things which should be done by the entire Folkish community. The whole welfare state mentality that teaches that the world owes us a living and that by the mere fact of existing we are owed something, this is a Jewish concept. Real men take care of themselves, they don't look to others to do it for them, most certainly not a government run by their most bitter enemies.

Another profoundly poisonous idea that the Jews have foisted upon us the belief that everybody has "rights", something everybody is born with simply by virtue of having two arms and two legs and a cranium of some kind. Under democracy, for example, the vote of a syphilitic drug addict counts just as much as the vote of a nuclear physicist. Mankind is a part of nature, and no other living organism exists in nature with anything like "rights". Nature is red in tooth and claw and so are organic, healthy human societies, tempered wherever possible with genuine compassion and love, but nonetheless competitive and demanding upon the individual that he function as a member of the

community. There are no rights, for anyone, in the final analysis. There only privileges earned as the reward of duty fulfilled.

White people today spend their lives in the frantic pursuit of things that DO NOT MATTER -- money, cars, casual sexual pleasure, alcohol and drug-induced stimulation of the senses, high-tech toys of various kinds. These material things are trash. We do not need them in order to live full and productive lives. National Socialism believes that our people were born to aspire to something other than the care and feeding and comfort of our bodies, that we were given our lives and our bodies and our racial identities for a purpose, to achieve things rather than to consume things. It is true that right now the main thing we need to achieve is White revolution to remove the government and the inferior races that threaten our existence. That's certainly a tall order that we will spend the next couple of generations working on, but we also need to achieve our own fulfillment and destiny through that struggle.

You were not put here on this earth to spend your entire life working at some pointless, stupid, and unnecessary job in order to be given a certain amount of green pieces of paper every month, with which you then go forth and buy useless consumer goods produced by other people who are doing the same. You were put here to leave the world a better place than you found it, and you cannot do that without accepting certain spiritual values into your life. These have been outlined in the leaflet "*Ten Principles Of National Socialism*". Basically these ten principles entail you recognizing WHO YOU ARE. The first step towards becoming an Aryan once more is to accept that fact that you have been given the greatest of all gifts of creation: the blood in your veins which has given us such a heroic past and a promising future if ever we can once more learn to listen to what that blood is telling us. From that blood, from that past, from that Aryan racial identity we can create anything we want, fight and defeat any enemy who opposes us, and once more rule the earth and make it over in our own image. No other race will ever be able to accomplish what we Aryans have accomplished, and no other race will ever take our place as rulers of the earth -- unless we let them.

We have failed thus far because the good men among us have refused to lay aside their private lives, to divest themselves of the things such as family and property and social respectability and material wealth which made them vulnerable. These useless, pretty, comfortable material things they loved more than their children's future. They refuse to become involved rather than sacrifice themselves for their people, and thus they have left the field to the morally inferior specimens who have inflicted such disgrace and madness upon all our resistance efforts for the past fifty years.

What is the solution? The White man must CHANGE HIS THINKING and RECOVER HIS ANCIENT COURAGE. He must reinvent himself as the man his ancestors were. That is why National Socialism is the only practical, tactical solution, because only in the ideal of Adolf Hitler can White men find the kind of spiritual strength to perform this vital act of re-invention.

Fundamentally, National Socialism means a new way of life. It means us living in an Aryan way, in accord with our unique Aryan ethics and in accord with our natural and healthy character. This Aryan way, this way of Blood and Soil, of conquest and exploration, of honor and duty, of idealism and excellence, is totally opposed to the way of capitalism with its material view of life and its material values. This Aryan way, the way of genuine folk-socialism, is totally opposed to the way of Marxism with its false, multi-racial socialism and its obsession with an abstract equality and happiness.

National Socialism seeks to develop, to elevate, the character of individuals by emphasizing the importance of (1) individual will, of self-discipline, and of (2) the civilized necessity of striving for noble, idealistic goals which are in harmony with nature. Marxism, capitalism and everything else, from Judeo-Christianity to modern liberalism, seeks to destroy excellence of individual character by having individuals conform to some abstract dogma or some idea, like racial equality, which is contrary to the will of nature and thus contrary to the evolution that nature produces.

Our present liberal democratic society is so anti-Aryan that it cannot now be changed into the free and noble society we yearn for in our hearts without a massive act of revolution. The decay, the rot of materialism, is so far advanced that this society cannot be redeemed. We must begin again from the very beginning and leave this society to decay and fall to pieces, as it assuredly will. And we can only begin again by either a real revolution - or many revolutions -- in an existing nation-state, or by creating an entirely new nation, a new homeland for ourselves.

This way is the way of commitment to our National Socialist future, where those involved would build and plan and work not for just decades ahead, but for centuries ahead. Those involved would see themselves as the founders of a new Aryan nation that would take many centuries to grow large and prosperous and begin to make our great destiny real. Those involved would have to endure hardship for the sake of the future of their race. Because of this, this way will appeal only to a few -- the most adventurous, the most daring, the most idealistic.

The National Socialist Brotherhood is a revolutionary movement built on this incredibly dynamic and powerful force: the Aryan idea. You must now prove yourselves worthy of that idea and of the racial heritage which God has bequeathed you.
